## Deep Diamond India Limited announces the Launch of “Deep Health India AI”

### A Landmark Step into AI-Powered Preventive Healthcare App

**Udaipur, Rajasthan, November 13, 2025:** Deep Diamond India Limited (BSE: 539559) is pleased to announce the upcoming launch of its pioneering digital-health initiative, Deep Health India AI, an intelligent, camera-based wellness platform that uses facial-scan technology to deliver real-time health insights. The public launch of AI-driven wellness platform ‘**Deep Health India AI**’ is scheduled on **Tuesday, November 25, 2025**, marking the company’s formal entry into India’s rapidly growing AI-driven healthcare sector.

#### ➤ **AI Meets Preventive Healthcare:**

Deep Health India AI leverages advance computer vision and artificial intelligence to analyse key wellness parameters including heart rate, breathing rate, blood-pressure indicators, stress index, and oxygen saturation through a simple, 60-second face scan.

The platform is entirely non-invasive, contactless, and accessible on any smartphone cameras, enabling instant health feedback without medical instruments or laboratory visits.

With **Deep Health India AI**, we are – “*turning a smartphone into a health companion*,” said Mr. Narayan, Managing Director, Deep Diamond India Limited. The Company envisions making preventive health awareness as effortless as checking the time — simple, affordable, and accessible to every Indian.

#### ➤ **Designed for India. Built for Access:**

The technology behind **Deep Health India AI** has been developed in collaboration with a global SDK partner specializing in AI-based physiological analysis, ensuring international-grade precision. Tailored for India’s affordability and connectivity landscape, the initiative aims to democratize early-stage health insights, especially across rural and semi-urban regions. By enabling community health workers, clinics, and NGOs to conduct quick screenings via smartphone or tablet, it marks a transformative step toward accessible preventive care nationwide.

#### ➤ **Empowering Shareholders and Early Users:**

As a gesture of gratitude for continued trust and support, Deep Diamond India Limited will extend a ‘**complimentary first health scan**’ to all registered shareholders of the company. This initiative underlines company’s commitment to inclusive innovation — ensuring that the benefits of emerging technologies reach those who have been the foundation of its long-term vision.

Following the shareholder rollout, the platform will open to the public through its official portal [www.deephealthindia.io](http://www.deephealthindia.io) and mobile interface on November 25, 2025.

## ➤ **Product Pricing and Deep Points Rewards:**

Post-launch, users will be able to access **Deep Health India AI** through flexible pricing options designed to make regular wellness checks affordable:

- ₹35 per single scan
- ₹75 for a pack of three scans
- Subscription plans available for frequent users
- Deep Points loyalty program — 1 point = ₹1 redeemable credit toward scans

These transparent, low-entry costs support the company's vision of building a mass-adoption model for digital wellness in India.

## ➤ **Launch Strategy and Readiness:**

The company's product, web portal, and data servers have undergone multi-phase readiness tests to handle the expected initial traffic surge of over 150,000 concurrent users.

Internal testing with pilot users demonstrated smooth system performance and consistent analytics accuracy across multiple devices.

All compliance requirements under Indian health-tech norms are being closely followed, including application for CDSCO registration as a precautionary safety and compliance measure.

## ➤ **Strategic Significance for Deep Diamond India Limited:**

This move into health analytics marks a key milestone in the Company's growth journey, aligning innovation with long-term value creation. The digital health initiative aims to build a sustainable, technology-driven vertical complementing existing strengths

*"Our foray into health-tech is more than a business expansion — it is a commitment to societal impact,"* added Mr. Narayan. *"Through Deep Health India AI, we want to empower every household in India to proactively monitor their well-being, bridging the urban-rural divide in healthcare access."*

## ➤ **Focus on Partnerships and Rural Health Programs:**

**Deep Health India AI** will partner with NGOs, CSR initiatives, telemedicine providers, and public health missions to enable large-scale rural screenings and real-time wellness insights supporting early diagnosis and prevention. The Company targets one million scans in the first year, driven by strong local outreach and awareness programs.

➤ **Looking Ahead:**

With the completion of SDK integration, infrastructure readiness, and launch logistics, Deep Health India AI stands positioned as one of India's most promising health-tech innovations.

Post-launch, the company will evaluate user analytics, engagement metrics, and partnership feedback to guide Phase 2 development, which may include personalized dashboards and AI-based health trend predictions.

➤ **About Deep Diamond India Limited:**

Deep Diamond India Limited (DDIL) is a diversified enterprise headquartered in Udaipur, Rajasthan, focusing on innovation-driven, high-growth sectors that combine technology and social value. The launch of Deep Health India AI marks company's entry into the digital-wellness domain — blending accessibility, data intelligence, and affordability to redefine preventive health in India.
